PERSONAL STATEMENT

First and foremost, I am a self-starter. Learning new coding languages and techniques is exciting. Through my variety of work experience, I've had the opportunity to discover that my passion lies in a field where I can work with a team to create a unique, exciting product for the client. I have the passion, motivation, and work ethic to be a great addition to a similarly motivated team.

EXPERIENCE

User Interface Web Developer, *VGM Forbin*   (Jan 2016 – Present)
- Translate the design team's vision for the website into code
- Create sites for a variety of industries (Medical, Banking, Restaurant, etc)
- Main coding languages/skills: HTML, CSS, JQuery, SASS/SCSS, custom animation
- Also familiar with PHP and .NET for daily tasks and debugging
- Conducted research and collaborated as part of the newly formed applications team in the early stages of future app development for the company (Languages: Swift 2, Angular JS, Node JS, and Firebase)

Intern in Web Developing, *Connell Aviation Group*   (Aug 2015 – Nov 2015)
- Maintained multiple Wordpress sites
- Repaired previously built sites to improve functionality for the client.

Electro-Medical Patient Care Coordinator, *VGM Group*   (Nov 2014 – Dec 2016)
- Conveyed important information between insurance companies and their clients to ensure providers could supply them with much needed supplies
- Assisted patients in need of TENS/NMES units to help relieve pain and live a normal life
- Exceeded production goals which allowed insurance adjusters to lighten their workload

Warehouse Worker, *Target Food Distribution*   (Jan 2011- May 2013)
- Organized a team of warehouse employees to efficiently perform daily tasks
- Trained and directed new team members
- Volunteered and contributed as part of the General Safety Team, addressing crucial risks and precautions
